

# Marin's ½-cent Transportation Sales Tax

In 2004, Marin County voters approved a ½-cent sales tax measure to fund local transportation projects. On November 6, voters will have the opportunity to renew the transportation sales tax and approve an expenditure plan that better reflects current transportation needs and priorities.

The ballot measure is titled Measure AA.

A two-thirds majority is required to renew the sales tax and create a reliable stream of local transportation funding into the future. More than a year of community input was provided to create the expenditure plan and the plan was approved by every city and town in Marin and by all five members of the Marin County Board of Supervisors.

The 30-year Expenditure Plan defines how the funds will be spent to rebuild our local roads, provide safe routes to schools, support transit and key highway improvements, reduce congestions and promote sustainability throughout Marin County.

**For more information, please visit [www.TAMPlan.org](http://www.TAMPlan.org).**

The Expenditure Plan includes:

- \$7.2 million annually for local streets and roads
- \$12.4 million for the Marin-Sonoma Narrows
- \$16.5 million for the direct connector from northbound 101 to eastbound 580 and the Richmond-San Rafael Bridge
- \$24.8 million for highway 101 interchange improvements
- \$3.1 million annually for Safe Routes to Schools including funding for 96 crossing guards
- \$14.9 million annually for transit including local and rural transit and services for students, seniors and people with disabilities

## How will sales tax funds be distributed?

Measure A funding benefits all of our Cities and Towns and the County of Marin

# BELVEDERE / TIBURON PENINSULA
