### **State Route 37 Resilient Corridor Program Project - Environmental Excellence Award**

The Federal Highway Administration (FHWA) has announced that the State Route 37 Resilient Corridor Program Project has received the 2019 Environmental Excellence Award.

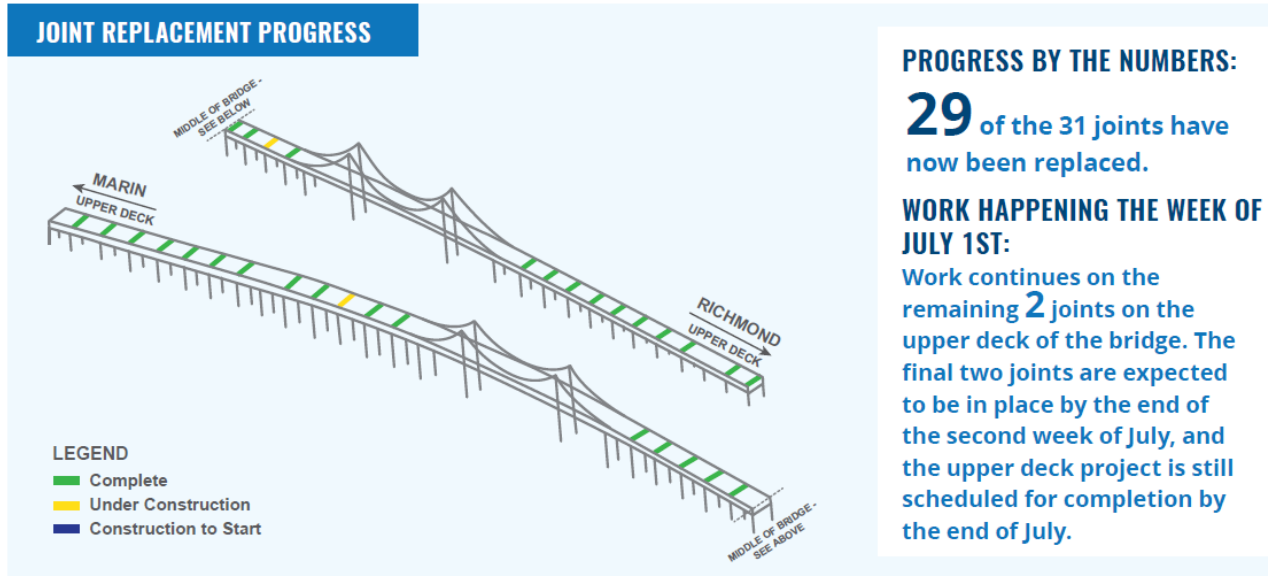

The award recognizes leaders across the country who make outstanding contributions to environmental stewardship and partnerships above and beyond traditional transportation project outcomes. These awards aim to recognize and exemplify such leaders and project contributions as a means of knowledge sharing and information exchange among peers.

This award recognizes the Metropolitan Transportation Commission and partners commitment to both near- and long-term considerations to holistically address critical issues in the corridor through anticipating and preparing for upcoming challenges by advancing short-term temporary solutions along with a ultimate long-term project plan. The intent is to "integrate, not mitigate." This project demonstrates a proactive and integrated transportation and ecosystem design solution to address mobility and access needs while incorporating strategies to improve resilience.

### Richmond-San Rafael Bridge Joint Repair Activity (UPDATE)

Work continues to replace the upper deck bridge joints on the Richmond-San Rafael Bridge. Caltrans is providing weekly progress updates and the work is expected to be complete in July. Steel plates associated with this work have caused traffic delays and motorists are being told to maintain the posted speed when crossing the plates. The contractor is installing longer, tapered steel plates whenever possible to help reduce the traffic delays.
