Hello,
It is too early for SMART to be asking for more tax money on the ballot. I feel that is a sign that something is wrong, something is being mismanaged.
I understand that it will take time for ridership to increase, but given the lies and management's cavalier and condescending attitude toward local citizens (like those in Bret Harte), SMART management needs to show that it can manage what it has, before they ask for more.
I am unable to attend your meeting on the 23rd. SMART management is not acting responsibly.
