Greetings TAM – I am writing to submit a public comment in support of the Marin City Soundwall project. The Page 7 (of 20) shows a discussion of this issue at the July 8th meeting.

One ongoing frustration related to this issue is that there have been several studies done about the noise pollution and air pollution coming from U.S. 101 and impacting residents of Marin City and now TAM and Marin County Public Works are meeting with Caltrans to “*determine the best course of action.*” While I’m glad there are meetings to this effect, my concern is that another report - PROJECT STUDY REPORT - delays the process and does not ensure there will be a wall.

I’d like to hear **explicit unequivocal support for a soundwall**. To date, it’s not clear to me that that support exists. Another report feels like kicking the can down the road.

Sincerely,
Maria Ramos-Chertok
Resident of Mill Valley, CA
