

Measure AA Expenditure Plan Amendment #1

March 26, 2026 (adopted), July 1, 2026 (effective date)

Pursuant to the actions of the participating jurisdictions and the TAM Board of Commissioners as defined by the Measure AA Expenditure Plan approved by the voters of Marin County in November 2018, the following amendments to said Expenditure Plan are hereby incorporated into the Expenditure Plan effective XXXXXXXX.

CATEGORY 1 (Change in funding distribution)

The following change in funding distribution shall supersede previous funding distribution language:

Percentage of Sales Tax Funds equal to ~~7%~~ **6.5%** of the total collected net of existing obligations and administration to be used in Category 1, with ~~3%~~ **2.5%** dedicated to “Improve Highway 101 local interchanges and freeway access routes to reduce congestion, improve local traffic flow, and address flooding impacts throughout the county.”

CATEGORY 2 (Multiple Changes)

The following change in funding distribution shall supersede previous funding distribution language:

Percentage of Sales Tax Funds equal to ~~22%~~ **18%** of the total collected net of existing obligations and administration to be dedicated to “Maintain and manage local roads to provide safe and well-maintained streets for all users. All investments will consider the needs of all users in accordance with local practices (i.e. “Complete Streets” practices) that have been adopted in each city, town, and the County. Improvements to maximize the efficiency, effectiveness, and resiliency of our transportation system to be determined by local jurisdictions and may include:

- ~~• Paving and repair to roadways, drainage, sidewalks and intersections.~~
- Paving, reconstruction, roadway repair, drainage, lighting, landscaping, and other roadways system components including integrated environmental protections and mitigations.
- Bike lanes and paths
- Safe pathways to transit and bus stop improvements
- System enhancements to accommodate new technologies such as signal coordination, real time information
- Investments to address congestion on local street and road corridors
- Facilities and support including project management, technical services and outreach to support alternative fuel vehicles, electric vehicles, zero emission vehicles and autonomous vehicles
- Municipal fleet conversion to alternative fuel vehicles including electric vehicles
- Improvements to address sea level rise and flooding on local streets

The following change in description shall supersede all previous language:

Sea Level Rise and Resiliency

Marin's transportation infrastructure is sited along vulnerable bay frontage that is at increasing risk of flooding and erosion from sea level rise and king tide events. This funding would be utilized to support protecting and adapting Marin's roadways and related infrastructure to the effects of sea level rise and flooding. These funds can be used to serve as seed money to find solutions, attract matching grants and leverage private investments to meet the challenges and vulnerabilities identified in numerous planning efforts including those of Bay Wave, and CSMART. The funds can also be utilized for facilities to support alternative fuel vehicles including electric vehicles. Sea Level Rise and Resiliency funds shall be available to TAM and to eligible recipients including local jurisdictions through a process defined by TAM.

The following change in funding distribution and description related to Innovation Technology shall be deleted and replaced with:

Percentage of Sales Tax Funds equal to **4.5%** of the total collected net of existing obligations and administration to be dedicated to "Reimagined Roadways: Provide planning and project development activities for large roadway capital projects."

Description: "With traffic and land use changes in Marin County, there is a growing need to advance large roadway capital projects, specifically roadway corridors or intersections, to support multi-jurisdictional travel and multiple modes of travel. This category would support the identification and planning of roadway projects of countywide significance. The funds would be used by TAM to advance prioritized projects through the initial project delivery phases and compete for construction funding. TAM would work with local jurisdictions to determine corridor needs in alignment with the Countywide Transportation Plan (CTP) and the ability to leverage outside grants from regional, state or federal funding sources."

CATEGORY 3 (Change in funding distribution)

The following change in funding distribution shall supersede previous funding distribution language:

Percentage of Sales Tax Funds equal to ~~41.5%~~ **12.0%** of the total collected net of existing obligations and administration to be used in Category 3, with ~~7.0%~~ **7.5%** of the total collected net of existing obligations and administration to be dedicated to "Maintain the crossing guard program, providing funding for crossing guards throughout Marin County".

The following description change will supersede all previous description language:

All references to number of sites and/or intersections will be replaced with number of crossing guards.

CATEGORY 4 (Modified description)

The following description change will supersede all previous description language:

Expand access to Rail and Ferry Stations through first and last mile programs or services. Expand and maintain shared mobility services, and new transit connections to address first and last mile connections to rail and ferry stations.

Marin County residents and workers now have expanded regional transportation options to improve regional mobility, particularly during commute hours. Local residents and workers often require first and last mile connections to make these regional options accessible, including access to the ferry and express bus services. This category helps to expand and maintain first and last mile solutions that provide access to regional transit stops for Marin's residents and commuters. The funds can be accessed by TAM, Marin Transit, or Golden Gate Bridge, Highway, and Transportation District as sponsors of shared mobility services such as bikeshare systems or new first/last mile connections (e.g. Shuttle service, new transit connections, or other shared mobility services) at major transit stops working in coordination with TAM.

COMMUNITY OVERSIGHT COMMITTEE (Additional language)

The following description change is in addition to all previous description language:

To accurately represent the voices of the communities in Marin, especially to timely address the needs and voices of the Equity Priority Communities (EPCs), the TAM Board has the authority to review and amend the COC membership structure when necessary.

AMENDMENTS TO EXPENDITURE PLAN (Modified and additional language)

The following description change will supersede the previous description of the frequency of reviews (the remaining amendment description language is unchanged):

The Expenditure Plan must be reviewed periodically following passage to ensure that it responds to a rapidly evolving transportation landscape, incorporates innovations, and reflects current priorities. The TAM Board may also consider an amendment, adhering to the process below, at the point of the scheduled review or at any time deemed necessary during the life of the Expenditure Plan.

The timing of the Measure AA Expenditure Plan review and the Measure B Expenditure Plan review will occur together for one consolidated, concurrent review for efficiency and effectiveness. The timing of the two review processes will occur concurrently during the second scheduled review for both Measures B and AA in 2032 to 2033 and will establish an eight-year cycle for both thereafter. This would provide four review cycles for Measure AA, including a final one the year before the measure is due to sunset in 2049.
